SUMMARY

Product designer, founder, and engineer with 15+ years building apps, creative technology, and full-stack software. Recently focused on AI-native and audio-first products, and on using AI to make better work faster. I am a scrappy mix of product, engineering, and design, optimistic and easy to work with.

SKILLS

Product design, AI-native product design, audio-first product design, rapid prototyping, iOS app development, Elixir and Phoenix full-stack development, creative technology, video production and visual asset creation.

EXPERIENCE

Func Main, Founder, Tech & Product - June 2016 - Present

Independent product studio where I've launched, grown, and sold my own apps, alongside selected client work.

- BlaBlaAHA! - AI-native, audio-first language app built around short listening sessions and conversational confidence.
- Happy Floor - Pelvic health app with audio-guided exercises, video tutorials, daily goals, and progression plans.
- Looselips - Conversation app with 1000+ prompts for dating, relationships, friends, and family.
- Bend.com - AI, social, and backend feature work for one of the world's most popular stretching apps.
- ElevenLabs Hacks - Competed in 3 ElevenLabs Hacks and won Gold in the Vercel challenge.

Active in Time Ltd, Founder & Product - July 2012 - Present

Founded a health and leisure technology company that grew from a one-person shop to five full-time employees. Splashpath became Apple's No. 1 Health & Fitness app in the UK, then relaunched globally as Speedo Fit through an exclusive four-year partnership with Speedo. The company continues to operate profitably, though I am no longer involved day to day.

- Active in Time - Profitable SaaS platform helping UK leisure operators manage pool timetables and programme changes.
- Speedo Fit - Global swim training and tracking app created through an exclusive partnership with Speedo.

Wilde, Chief Executive Officer - September 2019 - December 2020

Secured investment from Founders Factory and assembled the team to launch a new queer travel product, until COVID rained on our parade.

Pentland Brands, Creative Technologist - March 2018 - September 2019

Rapidly designed and built web/mobile prototypes for global brands including Lacoste, Speedo, and Berghaus.

Beeline, Mobile Product Design & Development - May 2016 - January 2017

Worked with the founders to plan, design, and build the first version of the Beeline app after a successful Kickstarter campaign.

Pulse Films, Video Director - 2006 - 2012

Directed over 15 music videos and commercials, including a viral marketing campaign I conceived and directed that won a Cannes Lions Gold Lion.

EDUCATION

Bournemouth University - Bachelor's Degree, TV Production, 2003 - 2006. Grade: 1st.

INTERESTS

Padel, water polo, Spanish, music, podcasting, photography, and queer community projects.
